

Service B

Important information

Visiting options

Parents may visit any time. Parents can be with their child around the clock (see flyer „Spending the night in the ward“). Further visits are possible on a limited basis from 1.30 p.m. to 7 p.m. and with a maximum of three people at the same time.

In hospital rooms with two beds, there may be certain times, such as new admissions, emergencies, medical visits or handover discussions, when visitors are asked to leave and wait in the parents' lounge.

Patient information

Information about patients is given solely to parents or to legal guardians.

Facilities

Apart from the patient's own room, Station B also has a lounge for parents (with a fridge and microwave) and two play rooms. There is also a separate room for breast feeding on the second floor.
