

8th Pediatric Neurosurgery Symposium

26 - 27 June 2025

University Children's Hospital Basel (UKBB)

Preamble

Dear Colleagues,

It is our pleasure to invite you to the 8th Pediatric Neurosurgery Symposium at the University Children's Hospital Basel (UKBB). Ongoing medical education is essential for both residents and pediatric specialists to stay abreast of the latest developments and advancements in the conditions we diagnose and treat in our young patients. This year, we will delve into the highly relevant and often complex topic of syndromic and non-syndromic craniosynostosis in children. Our discussions will cover both fundamental principles and the latest innovations in treatment. This symposium aims to provide you with the most up-to-date insights into diagnosis, clinical decision-making, multidisciplinary care, and therapeutic approaches. Craniosynostosis – particularly in its syndromic form – often requires long-term, complex management by a highly specialized, multidisciplinary team. An interdisciplinary approach, as practiced at centers like the University Children's Hospital in Basel, is essential to ensuring optimal care.

On Thursday, June 26th, we are honored to welcome world-renowned experts who will deliver keynote lectures and specialized talks on syndromic and non-syndromic craniosynostosis. We believe this session will be highly relevant and engaging for all physicians involved in the care of these children, including pediatricians, maxillofacial specialists, pediatric surgeons, neurosurgeons, neuropediatricians, psychologists, psychiatrists, and anyone with an interest in pediatric medicine.

The session will conclude with an expert panel roundtable discussion, providing participants with the opportunity to ask their most pressing questions and engage in insightful dialogue.

On Friday, June 27th, we will begin the second day with an engaging and dynamic discussion on challenging syndromic and non-syndromic craniosynostosis cases. This will be followed by an afternoon dedicated to hands-on workshop activities, designed primarily for residents but open to all interested participants. The workshops will focus on endoscopic synostectomy, posterior vault expansion craniotomy with and without distractors, and total calvarial expansion. Participants will have the opportunity to train on 3D-printed skulls, experience virtual reality for selected craniosynostosis cases, and explore the mechanics behind shunt technology for hydrocephalus treatment, among other interactive learning experiences.

Participation in the symposium, as well as food and beverages during the meeting, will be offered free of charge thanks to the generous support of our sponsors.

We look forward to welcoming you to the University Children's Hospital in Basel for what promises to be a highly educational and collegial day, dedicated to expanding our collective knowledge in Pediatric Neurosurgery.

Warm regards,

Prof. Raphael Guzman, chief Pediatric Neurosurgery

Prof. Jehuda Soleman, deputy chief Pediatric Neurosurgery

Dr. Maria Licci, attending physician Pediatric Neurosurgery

Dr. Ladina Greuter, attending physician Pediatric Neurosurgery

Program

Thursday 26 June 2025

University Children's Hospital Basel (UKBB), Spitalstrasse 33, 4056 Basel.

8.00- 8.30	Registration and Coffee in Foyer
8.30- 8.35	Welcome address (Prof. Raphael Guzman and Prof. Jehuda Soleman, Basel)

Syndromic and Non-Syndromic Craniosynostosis - Background (Chair: Dr. med. Andrea Bartoli, Geneva)

8.35 - 9.50	Overview and epidemiology of syndromic and non-syndromic craniosynostosis (Dr. Tamara Vernik, Basel)
8.55 - 9.10	Classification and clinical features of syndromic and non-syndromic craniosynostosis (Dr. Katharina Lutz, Bern)
9.15 - 9.30	Genetic aspects and genetic testing in craniosynostosis (Prof. Isabel Filges, Basel)
9.35 - 9.50	Radiological features in syndromic and non-syndromic craniosynostosis (Prof. Irina Mader, Basel)
9.55 - 10.10	Quantifying cranial and facial shape changes using 3D photogrammetry in syndromic and non-syndromic craniosynostosis (PD Dr. Benito Benitez, Basel)
10.15 - 10.30	Neuropsychological and cognitive aspects in craniosynostosis (Prof. Federico Di Rocco, Lyon)

10.30 - 11.00 *Coffee break*

Keynote Lecture I (Chair: Prof. Javier Fandino, Aarau)

11.00 - 11.25	Evolution of craniosynostosis treatment over the years (Prof. Federico Di Rocco, Lyon)
---------------	--

Non-syndromic Craniosynostosis– Surgical Treatment Part I (Chair: PD Dr. Mahmoud Messerer, Lausanne)

11.30 - 11.55	Open surgical techniques in non-syndromic craniosynostosis (Prof. Shlomi Constantini, Tel Aviv)
12.00 - 12.15	Open CAD/CAM-assisted craniosynostosis surgery (Prof. Andreas Müller, Basel)

12.15 - 13.15

Lunch break

Non-syndromic Craniosynostosis– Surgical Treatment Part II

(Chair: Prof. Shlomi Constantini, Tel Aviv)

- | | |
|---------------|--|
| 13.15 - 13.30 | Total calvarian reconstruction, late and recurrent treatment of craniosynostosis (Prof. Raphael Guzman, Basel) |
| 13.35 - 14.00 | Endoscopically assisted techniques in non-syndromic and syndromic craniosynostosis (Prof. Jehuda Soleman, Basel) |

Keynote Lecture II (Chair: PD Dr. Andrea Cardia, Lugano)

- | | |
|--------------|--|
| 14.00 -14.25 | Non-syndromic craniosynostosis: Indications for surgery (Prof. Irene Mathijssen-Rotterdam) |
|--------------|--|

Multidisciplinary care for syndromic craniosynostosis (Chair: PD Dr. Christian Zweifel, Chur)

- | | |
|---------------|--|
| 14.30 - 14.45 | Ophthalmological aspects in syndromic craniosynostosis (Dr. Daniela Suter-Starosta, Basel) |
| 14.50 - 15.05 | Airway management and disorders in syndromic craniosynostosis (Prof. Daniel Trachsel, Basel) |
| 15.10 - 15.25 | Modern technologies in surgical treatment of children with craniosynostoses from a cranio-maxillo-facial perspective (Prof. Dawid Larysz, Olsztyn) |

15.30- 16.00

Coffee break

Syndromic Craniosynostosis – Surgical treatment (Chair: Prof. Ulf Schneider, Luzern)

- | | |
|---------------|--|
| 16.00- 16.15 | Treatment workflow and primary reconstruction techniques in syndromic craniosynostosis (Prof. Roman Khonsari, Paris) |
| 16.20 -16.35 | Distraction techniques and posterior vault expansion in syndromic craniosynostosis (PD. Dr. Benito Benitez, Basel) |
| 16.40 – 16.55 | Treatment of ICP, hydrocephalus and secondary Chiari malformation in non-syndromic and syndromic craniosynostosis (Prof. Radek Frič, Oslo) |

Round table discussion (Moderator: Prof. Jehuda Soleman, Basel)

17.00- 18.00	Controversies in non-syndromic and syndromic craniosynostosis (Prof. Constantini, Prof. Edwards, Prof. Frič, Prof. Guzman, Prof. Khonsari, Prof. Larysz)
18.05-18.10	Closing remarks (Prof. Raphael Guzman, Basel)

18.10 *Apéro riche*

20.00 *Dinner*

Disclaimer: The post-dinner programme, including any live entertainment and bar services, is informal and not part of the sponsored symposium events. Costs and fees incurred are to be pay personally.

Friday 27 June 2025

Anatomical Institute University of Basel, Pestalozzistrasse 20, 4056 Basel.

08.45- 09.00	Registration and welcome coffee in the Anatomy Institute
09.00- 09.15	Welcome (Prof. Raphael Guzman/Prof. Jehuda Soleman, Basel)

Case discussions

09.15 – 12.00	Case Discussion Craniosynostosis, (speakers: Dr. Bartoli, Prof. Constantini, Prof. Guzman, Prof. Soleman)
---------------	---

12.00 – 13.00 *Lunch Break*

Hands-on course

Please note: Hands-on Activities are limited for 25 participants. First come, first serve, everyone is welcome as an observer.

13.00 – 16.45	<ul style="list-style-type: none">- Endoscopic Synosectomy- Posterior vault expansion craniotomy and distractors.- Total calvarial Expansion- Hydrocephalus by Integra-Codman and by MIETHKE B Braun- Patient positioning and pinning techniques in Children- Virtual Reality on Craniosynostosis
16.45 – 17.00	Closing remarks and feedback

Speakers

PD Dr. B. Benitez,
Basel

Prof. S. Constantini,
Tel Aviv

Prof. F. Di Rocco,
Lyon

Prof. M. Edwards,
San Francisco

Prof. I. Filges,
Basel

Dr. R. Frič,
Oslo

Prof. R. Guzman,
Basel

Prof. R. Khonsari,
Paris

Prof. D. Larysz
Olsztyn

Dr. K. Lutz,
Bern

Prof. I. Mader,
Basel

Prof. I. Mathijssen,
Rotterdam

Prof. A. Müller,
Basel

Prof. J. Soleman,
Basel

Dr. D. Suter-Starosta,
Basel

Prof. D. Trachsel,
Basel

Dr. T. Vernik,
Basel

Session Chairs

Dr. A. Bartoli,
Geneva

Prof. A. Cardia,
Lugano

Prof. S. Constantini,
Tel Aviv

Prof. J. Fandino,
Aarau

PD Dr. M. Messerer,
Lausanne

Prof. U. Schneider,
Luzern

Prof. J. Soleman,
Basel

PD Dr. Zweifel,
Chur

Workshops

PD Dr. B. Benitez,
Basel

Dr. A. Bartoli,
Geneva

Prof. S. Constantini,
Tel Aviv

Prof. M. Edwards,
San Francisco

Dr. L. Greuter,
Basel

Prof. R. Guzman,
Basel

Dr. M. Licci,
Basel

Prof. J. Soleman,
Basel
